## Examples of Brick Slips as Exterior Cladding to Buildings.

### 1) New builds

	
<p>Typical example of slips used as skirt on ICF (Polysteel) bungalow.</p>	<p>Brick slips are 7421RS from the Celina Klinker range supplied by Padipa Ltd. Ardex adhesives used and supplied by Padipa Ltd</p> <p>Rendering by Heathfields using Ceresit acrylic thin coat render.</p>

	
<p>Low energy ICF (Euromac 2) house in a conservation area.</p>	<p>Slips supplied by contractor and work undertaken by Padipa Ltd. All fixing materials from the Ceresit range and supplied by Padipa Ltd.</p>

Sheltered housing bungalows in County Durham built using ICF (Beco).

Brick slips are 7429HL from the Celina Klinker range from Padipa Ltd. Ardex adhesive used. All work undertaken by contractor.

## 2) Renovations

In these examples of renovations, up to 100mm of insulation has been applied externally. This has the advantages that the house/flat must not be vacated while the work is being done, rooms are not reduced in size and is the work is less fiddly.

A four storey block of flats in Stuttgart, Germany undergoing full renovation. Work undertaken by R. Heumer GmbH of Heiden .

Exterior insulation applied and then clad with brick slips from the Celina Klinker range. All fixing materials from Ceresit – insulating board, reinforcing mortar, reinforcing mesh, adhesive and pointing mortar.

All these materials are also supplied by Padipa Ltd.

An older property in Germany is brought up to modern standards by the application of exterior insulation and replacement of windows, doors etc.

The work has been undertaken by R. Heumer GmbH using brick slips from the Celina Klinker range and Ceresit fixing materials throughout. All these materials are available in the UK from Padipa Ltd

A selection of photographs from a large renovation project in Bristol.

The flats had been externally insulated and then brick slip clad.

All materials were supplied by the contractor and work undertaken by Padipa Ltd

Part of a car park.  
Brick slips from Celina  
Klinker and adhesives from  
Ceresit

### **3) Commercial**

Large commercial projects are no problem for brick slips as in this multi-storey car park.
